## HINTS ON GAME PLAY

There are 7 gates and at the end of each gate is an evil demon. Once this evil demon is killed, a key will fall out of the sky. This key opens the next gate. At the 7th and final gate you must do battle with the Devil in hand-to-hand combat. If you win, the beautiful **Princess** is saved.

When the **Knight** is hit on his suit of armor, he loses his suit of armor. The 2nd hit kills the **Knight**. You control the **Knight** with a 4-way control pad; to climb ladders, run forward or backwards, and to duck down to avoid the evil demons. The **A** and **B** buttons on the control pad are used to **A)** jump and **B)** throw weapons. If you push **A** then **B** immediately afterwards, the **Knight** will throw the weapon while jumping. If you use the control pad in the down position with the **B** button, the **Knight** will duck down and throw weapons.

## HINTS ON GAME PLAY

Throughout each scene there are Jars which hide 5 different weapons — Javelins, torches, swords, axes, and crosses. When the game begins, the **Knight** is armed with a javelin.

**Javelins** —when thrown, they continue off the end of the screen.

**Torches** —when thrown, they form an arc and continue burning. When they hit the ground, if there are two fires burning you cannot throw another torch until one burns out.

**Sword** —same as javelin but with more speed.

**Axe** —they also form an arc when thrown.

**Cross** —when thrown they fly straight and stop the enemies' attack.

## HINTS ON GAME PLAY

Our beautiful **Princess** is kidnapped. Her lover, the **Knight** in his shining armor, is armed with five different weapons. The **Knight** must pass through seven gates, each guarded by an evil demon. As the **Knight** destroys the evil enemy demons, a key appears from the sky. This key opens the next gate.

At the 7th and final gate, your skill enables the **Knight** to engage in hand-to-hand combat with the Devil. Defeat the Devil and the beautiful **Princess** is rescued.

Each time the **Knight** is hit with enemy firepower, he loses his suit of armor. The 2nd straight hit kills the **Knight**. Throughout every scene there are jars which hide the 5 different weapons for the **Knight**.
