Rastan™

This is the story of a barbarian who battled destiny with cold steel . . . and won.

His name was Rastan. He was a bounty hunter by trade, in a savage land ruled by cutthroats and villains. Rastan was a giant of a man with muscles of iron and the scars of many a bloody battle. It was known by all that where Rastan strode, death was soon to follow.

But not even the seers with their rune stones could see what fate held in store for Rastan. One thing was certain. Rastan would let no man . . . or God . . . control his destiny!

It began when the king called him to the royal courts. He asked Rastan to rescue his daughter. She was being held in the darkest reaches of Semia; a region where even the foulest thieves feared to go. In return, the king promised Rastan untold riches!

Rastan sharpened his Barbarian Sword and set out to rescue the princess. The rest is history . . .

Getting Started

Rastan™ is a one player game. To begin, insert the cartridge in your Sega Power Base and press the Power Button. When the title screen appears, press the Start Button.

You begin Rastan™ with three lives. When the game is over, you have these options:

CONTINUE: This will put you back into the game at the beginning of the last round you played. You can continue three times.

END: This will bring you back to the title screen for a new game.

Rastan™ has seven rounds. Each round has three scenes. In the third scene you will have to do battle with one of the minion lords of Semia. Defeat them, and your life meter will increase in size. But you must fight fast. In the third round

your life meter will gradually diminish whether you are hit by the enemy or not. It's to your advantage to find their weak spot and defeat them as quickly as possible.

Taking Control

The Directional Button moves Rastan in eight directions.

UP: To climb ropes. High jump (with Button 2).
Attack (with Button 1).

DOWN: To kneel. To climb down ropes.
(NOTE: You cannot climb up or down swinging ropes).

LEFT: To move left. Attack (with Button 1).

RIGHT: To move right. Attack (with Button 1).

DIAGONALS:
Jump in that direction when used with Button 2.

COMBINATIONS: Press Button 2 to jump.
Then press Button 1 and DOWN on the D-Button.
Rastan will attack from above!

SubScreen

If you press the PAUSE Button on your Power Base during game play, you will access a subscreen showing your inventory and score.

Items

You begin Rastan™ with a Barbarian Sword. In the course of the game you will find other weapons and items to help you in your battle. Some items can be found just by looking. Others will appear after you defeat an enemy. Items can be picked up and used by touching them with Rastan's sword or body. But remember that they only last for a limited amount of time. There are three kinds of items; offensive, defensive and special.

Helpful Hints

- Fight the lords of Semia as quickly as possible. The air in their chambers will cause your life meter to run out whether they are hitting you or not.
- Master the technique of cutting from above. Few enemies can defend against this type of attack!
- Shattering destructible stone can often lead to interesting surprises.
- Try to get through an area before nightfall comes. At dark, the smaller, more dangerous creatures can harass you to death.
